ItsOnUs 2024

Its on Us to keep Campus Safe

When Molly left her 7 pm class in Bachelor hall on a Tuesday evening in the Fall of 2022, the last place she expected to end up was the university police station. Molly is just one of over 4% of students who experienced **stalking and harassment** on campus in 2022. Molly was able to report her stalking and seek help from law enforcement before being seriously harmed, but the threat has made her and many other women feel **unsafe on campus**.

ItsOnUs, a campus organization aimed at stopping sexual assault, stalking, and harassment on college campuses, aims to make students like Molly feel safe and at home again. During **Women's Week 2/3-2/7**, ItsOnUs will sponsor events aimed at making Miami University a better, safer place.
